

## **Blong Xiong Consultant I**

Blong Xiong has over eight years of experience in acoustics, vibration and noise control. As a consultant with Colin Gordon Associates, Mr. Xiong work includes in-field vibration and noise measurements, environmental noise modeling, and finite element analysis (FEA) of building structures. Prior to joining Colin Gordon Associates in 2006, he worked on vehicle noise and vibration control (NVH) for the automotive industry. That work involved lab and on-road vehicle testing as well as statistical energy analysis (SEA).

### **Education**

- Master of Science – Sound and Vibration  
Chalmers University of Technology, Göteborg, Sweden
- Bachelor of Science – Mechanical Engineering  
Kettering University, Flint, Michigan

### **Honors and Professional Societies**

- Member, Institute of Noise Control Engineering
- Member, Acoustical Society of America
